

TRACEABLE CASHMERE

Cashmere is one of the most valuable natural yarns in fashion and a firm staple within our collections. Its luxurious qualities and sumptuous texture make it softer and warmer than other yarns.

We are aware of the social and environmental issues that are intrinsic to this fibre and as we look at ways to preserve it, we are addressing its environmental impact by reducing waste and fully tracing its supply chain.

THE FIVE FREEDOMS

This ethos is based upon The Five Freedoms: an internationally accepted standard of care that affirms every living being's right to humane treatment. Our supplier works with the local herders to manage the number of animals per acre to prevent overgrazing and desertification, as well as to protect the health of grasslands; since the livelihoods of the herders and animals depend on healthy soil for their food source.
